## NEWS AND COMMENT.

Mrs. John A. Murphy, of Cincinnati, and her daughters, will contest the will of the late Samuel Murphy, of Nashville, and the adoption of Mr. and Mrs. Felder by Mrs. Murphy. It is alleged that Mr. Murphy promised his relatives that they should become his heirs. Mrs. John A. Murphy says her husband received less than \$100,000 from his brother.

Strong evidence is being brought against Joe Keith, on trial at Princeton, Ind., for the murder of Nora Keifer. The defense will attempt to show that Keith is merely a victim of circumstances, and that some one else murdered the girl.

Disquieting news comes from Venezuela. The government shows disposition to resist legal processes employed by American Asphalt concessionaires, and a show of force by the United States may be necessary.

Grover Cleveland, David B. Hill, Daniel S. Lamont, W. F. Sheehan, William C. Whitney and other old line Democrats will, a New York paper says, organize the Samuel J. Tilden club in New York.

The senate acted favorably on a resolution favoring a law preventing the sale of opium and intoxicating liquor to aboriginal and uncivilized peoples. William J. Bryan is in Pensacola on his way to Tallahassee to see his cousin, W. S. Jennings, inaugurated next Tuesday as governor of Florida.

M. J. Magher, of Frankfort, and Geo. L. Willis, of Shelbyville, will probably be two of the members of the new state board of equalization.

And J. Gen. Murray has forwarded to the war department his report of the government property now in use by the state guard.

Several Chicago shoe manufacturers have organized a company with \$1,000,000 capital to fight the rubber trust.

Fifty more face makers are bound from Liverpool for Dowie's Zion City, in this country.

## MARCH 28.

THIS IS THE DATE FIXED BY THE DEMOCRATIC COMMITTEE

This Afternoon—The Primary Is to Be Held Under the Statute—Qualification of Voters.

The Democratic County Executive Committee met at the county court house at 2 o'clock this afternoon to fix a date for holding the Democratic county primary.

There were 16 out of 21 committee-men present. Chairman Joe Potter presided.

After hearing expressions from the various candidates present as to the time that best suited them for holding the primary, Thursday, March 28, was unanimously agreed upon by the committee and it was voted to hold the primary under the statute law.

All who are registered Democrats and voters for Bryan or Beckham are entitled to vote.

Chairman Caldwell, of the City Democratic committee, stated this afternoon that he did not know when his committee would be called, as it was hardly time to think of a city primary.

CLARK MAY BE ACQUITTED. Dixon, Ky., Jan. 5.—Dr. Clark's case goes to the jury this afternoon. A verdict of acquittal is expected, as the evidence for the defense has been very exonerating.

STORE KEEPER BELL GIVEN OUT—NEW SAND HOUSE.

Store Keeper Bell Given is out again, after a two days' illness.

Master Mechanic T. F. Barton is still quite ill.

The Illinois Central has begun the erection of a new sand house, to take the place of the one recently partially destroyed by fire near the round house.

Stenographer N. J. Brooks, who has been in the office at Henderson for the past six weeks, temporarily, returned this morning and resumed his position in the master mechanic's office.

Until this year the Illinois Central had the largest locomotive that had ever been built. The Pittsburg, Bessemer and Lake Erie now has the largest locomotives in the world. These engines weigh 391,400 pounds, which is thirteen tons more than the Illinois Central engines weigh.

## LARGE SUMS DISBURSED

A Very Dull Week in all Lines—Merchants Preparing For the Coming Season.

## OTHER NEWS OF THE PAST WEEK

Business in all lines has been quiet the past week. Most of the wholesale houses were getting up new lines of samples for the road and rounding up the past year's business. Every one expresses satisfaction with the 1900 business and anticipates a splendid year this one. The banks, especially, had a fine year and disbursed good dividends to the stockholders. A comparative statement of the year 1900 with 1899 is interesting, and shows the expansion of the local institution. The statements are as follows:

Loans and Dis., \$1,834,818—\$2,028,133 Undivided profits, 341,494—360,648 Deposits, 1,334,870—1,500,636 Besides the increase of nearly \$18,000 in undivided profits dividends aggregating \$65,400 were paid the shareholders.

The postal receipts, too, show a heavy increase. For the past quarter they totalled something over \$10,000. To be a first-class office the receipts must average \$10,000 per quarter, so Paducah will soon be in the first-class on the above showing.

Clearings for the past week, with one holiday, were \$441,164.09.

The Paducah Brewing company's plant is not quite ready to start, but will be in several weeks. The plant is a splendid one and a good addition to Paducah's commercial interests.

NEW YORK BANK STATEMENT NEW YORK, Jan. 5.—The bank statement shows the following changes: Reserve—Increase ..... \$2,625,175 Specie—Increase ..... 3,188,100 Loans—Increase ..... 3,706,300 Deposits—Increase ..... 16,760,900

## K. T. CONCLAVE.

PADUCAH'S PART OF THE ESCORT COMMITTEE—OTHER FACTS OF INTEREST.

Louisville, Ky., Jan. 5.—Mr. William K. Penrod, commander of Paducah commandery, No. 11, Knights Templar, has announced to Triennial headquarters in this city the appointment of the Paducah knights who will serve on the escort committee during the 28th triennial convocation August 27-30. The names forwarded by Recorder Hammond H. Loving are as follows: Capt. Brinton B. Davis, George O. Ingram, Charles E. Whitesides, Henry B. Hank, Henry W. Hills, Charles Holiday and Silas G. Bryant.

The escort committee is under the chairmanship of about 600 or 700 templars drawn from every commandery in the state. It will be the duty of the committee to meet all incoming commanderies at the railway stations and escort them to the lodging quarters; they will occupy during the convocation week.

The knights will all be in uniform while serving on the committee and will be divided into squads and companies, the larger the visiting delegation the larger the escort assigned to it. Their services will be required from the Saturday preceding the convocation up to the time of the parade the following Tuesday morning.

Conclave preparations are being rapidly pushed and a royal time is in store for visitors to the city during the triennial. New features are being constantly added to the programme and the number of contracts closed for accommodations for outside commanderies indicates that the attendance will be record breaking proportions.

## ALL A HOAX.

MR. GEORGE THACKER REPORT-ED DROWNED, BUT IS HERE.

Postman Charles Thacker today received a telegram from his cousin, Mr. F. L. Thacker, who is in Greenville, Mississippi, asking if the body of his brother, George Thacker, was found to go to Mound City, Ill., and take charge of it.

Postman Thacker inferred from this that his cousin, George Thacker, must have been drowned at Mound City. He immediately began an investigation, however, and found the young man here, alive and well. He has no idea how such a groundless report could have been started.

John W. Shotwell, Jr., cashier of the Ray county bank at Richmond, Mo., is missing. So is much of the bank's funds.

## SUDDEN DEATH.

MR. ABE HUDSON, A WELL KNOWN RIVER ENGINEER, DIES AT CANNELLTON, IND.

Mr. Abe Hudson, a well known river engineer who lived in Golconda but was in Paducah every day, died a day or two ago at Cannellton, Ind., from heart failure. He was about 48 years of age, and for several years ran on the J. C. Kerr and the City of Clarksville.

He leaves a wife at Golconda, to which place the remains were brought on the packet this morning for burial this afternoon at 3 o'clock.

The deceased was well known in Paducah, and was a member of Jersey Camp, Woodmen of the World. Mr. Marion Baker, of the last named order, went up on the packet this morning to attend the funeral.

## OFFICIAL FIGURES

PADUCAH'S DEATH RATE IS REDUCED BY THE PROPER

Eliminations—Five Hundred and Seventy-Four Burial Permits Issued Last Year.

The official death rate for Paducah is about 23 to the 1,000. This is based on the records, there having been issued by the health office last year 574 certificates.

A careful canvass of the records shows that of these 108 deaths were from accident, suicide, premature or childbirth, and includes all foreign deaths, in which the funeral was held in Paducah.

This leaves the number of deaths from natural causes in Paducah during the year past, 466, and fixes the death rate at 23 to the 1,000, which is too large, and should be reduced by the concerted action of citizens, health board, officials and press.

The medical society meets again Wednesday night with Drs. Rivers and Reddick, and the doctors will discuss various features of the move to secure better sanitation.

## TO THE PUBLIC.

MAYOR LANG PRESENTS HIS VIEWS UPON THE CITY'S DEATH RATE.

From published utterances concerning health conditions it does seem that it is human to tear down where others would build up. Health is of all questions which confront a people the most important, whether a nation, state or community. Mortality records are kept for two purposes.

First, for the information of the general government to show the ratio of deaths to births, and in this record births should be kept correctly as well as the list of total deaths from whatever cause.

Second, for an index into the sanitary conditions or climatic causes destroying life. This is the most important purpose and one of vital public interest, locally, and the record so much abused now to the very great injury to this city. No death should be charged to this record, and anyone of ordinary intelligence must know this, except those from some disease superinduced by local sanitary conditions or climate, hence suicide, accidental deaths, drownings, premature births, child-births, extreme old age, deaths shipped into the city for burial from other points, etc., etc., have no place in this record. People depart this life from the above causes in the purest air and highest altitudes and these are not enlightening, but destructive to the information sought by such a record and crushing to any city where its officials are so short-sighted as to add them in the list.

This matter is important to the welfare of the city that unless it be corrected must throttle its commerce and thrust a dagger to the very foundation of its existence, and to toy with it, as is being done, is criminal. Below are the correct records for the year of 1900 in full, taken from the books of the undertakers of the city, who are aware of errors widely diffused and of its great harm to local interests. The records are absolutely correct.

Total number of burials handled, 604.

Total number of white persons, 406.

Total number of colored, 198.

Buried from country, of these white, 128; balance white, 278.

Buried from country, of these colored, 3; balance colored, 195.

Shipped in from other cities, white, 24; balance white, 284.

Shipped in from other cities, colored, 1; balance colored, 194.

Death by accident, white, 9; balance white, 245.

Death by accident, colored, 7; balance colored, 187.

Suicides, white, 2; leaving balance white, 243.

Suicides, colored, 1; leaving balance colored, 193.

Drowned, white, 2; leaving whites reduced to 241.

Drowned, colored, 1; leaving colored reduced to 197.

ored reduced to 185. Premature births, whites, 25, reducing whites to 216. Premature births, colored, 3; reducing colored to 195. Child-birth, whites, 2; reducing to whites, 214. Child-birth, colored, 2; reducing colored to 193. Deaths from local causes, including infancy and old age and sixteen from the Illinois Central railroad hospital and twelve from the city hospital, which have not been deducted, leaves whites, 214; colored, 180. A per centum of the population of 1,977 or about 20 to the 1,000 persons who have been buried from the two hospitals named and which have not been deducted, were, in the main, strangers sent there by reason of accident or from diseases contracted elsewhere before being brought to the city. The white population of the city is fixed at an approximate of 14,000 which shows a legitimate mortality list of 214, or a per centum of 1.53, being 15 1/2 to the 1,000 population. The colored population is perhaps given liberally at 6,000, with legitimate mortality list of 180, which is 3 per centum or 30 to the 1,000 population. This high mortality among the colored people swells the gross mortality per cent and is caused by careless sanitation, personal dwelling together in small rooms in greater numbers than should be permitted and in houses lacking in comfort, drinking water from wells and the lack of care of their young children, of whom this heavy mortality record is largely made and which is shown to be from the records. These are the correct records. The white per centum is small, the colored quite large, but the numbers are in harmony with the records of all cities of a large mixed population.

tion of the two races named. It is duty of the honorable city board of health to take up mortality records and discuss them in the reports of their private meetings, deducting from unnatural causes and extreme longevity, separate the race record with the per centum given to each and labor to relieve the cause. It is not a part of the functions of that office to inflate the records with deaths from other places, accidents, etc., etc., alarm the outside world and damp the city's future.

If the public claims made as to itary conditions by reporters and who convey to them information are true, then science has stepped backward, and it must be the correct public policy to tear up the sewerage system, both sanitary and storm water take out pipe crossings, restore the old gutters and wooden culverts with roofing felt, and under them seek old time sanitary conditions and the customs of our fathers and live forever. Very respectfully, JAS. M. LANG, Mayor.

SATURDAY, JAN. 5, 1901.

Michigan should be glad she is rid of Pingree. His was a running sore to the state.

It is not what a fellow thinks as much as it is what the other fellow thinks he thinks of what the fellow thinks he thinks that sets the world to thinking it thinks very little of what either the other fellows think they think. The carping critic will find profit if he gives this incongruity a little thought, without doubt.

What becomes of our revenue is easily explained. A few appropriations of the many will give an idea: The United States government is paying annually \$141,000,000 in pensions alone to the soldiers of the civil war. In 1860 we paid \$221,973 for the improvement of rivers and harbors. In 1898 we paid \$20,785,000, and in 1899 \$16,082,000. The postal deficiency in 1898 was \$10,504,000, and \$82,110,000 in 1899, and yet the postal system was extended. The light-house establishment called for \$835,000 in 1860 and \$3,118,000 in 1899. This is an expensive as well as a great country, but its bills are promptly liquidated.

There is, as has been said, a question of grave international import in the Cuban debts or claims. The question has been raised by claims presented by Germany, England, etc., for losses to their subjects on the island during the prolonged war. There being no Cuban government the demand become interest to America notwithstanding this country has divested herself of responsibility for any kind of claims presented against the island. This interest lies in the idea, presented with no little misgiving, as to what this country would have to do should Germany or England present a demand and insist, by force, if necessary, on payment. The question arises, would the United States intervene to protect the island government? The question is certainly a grave one. The United States can not permit any European nation to acquire temporary, much less permanent, domination in Cuba, under any title or claim whatsoever. Cuba's debts therefore become of vital interest to America in spite of all divestment or wish in the matter.

### PRINCETON FIRES.

BLAZES IN THREE DIFFERENT RESIDENCES IN TOWN.

Princeton, Jan. 5.—There were three fires in progress at one time here last night in different parts of the city. All were residences and two were of incendiary origin. A reward of \$400 is outstanding for the arrest of firebugs.

### BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces, such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney Co. Testimonials free. Sold by druggists, 75c per bottle. Hall's Family Pills are the best. Good and cheap. —Sun Office.

## NOT DUE TO CLIMATE.

CATARRH IS FOUND EVERYWHERE.

Catarrh is at home anywhere and everywhere. While more common in cold, changeable climates, it is by no means confined to them, but is prevalent in every state and territory in the union.

The common definition of catarrh is a chronic cold in the head, which if long neglected often destroys the sense of smell and hearing; but there are many other forms of the disease, even more obstinate and dangerous.

Catarrh of the throat and bronchial tubes as well as catarrh of the stomach and liver are almost as common as nasal catarrh and generally more difficult to cure.

Catarrh is undoubtedly a blood disease and can only be successfully eradicated by an internal treatment; sprays, washes and powders are useless as far as reaching the real seat of the disease is concerned.

Dr. McVerney advises catarrh sufferers to use a new preparation, sold by druggists, called Stuart's Catarrh Tablets, because actual analysis has shown these tablets to contain anti-septic qualities of the highest value and being an internal remedy, pleasant to the taste, convenient and harmless, can be used as freely as required, as well for children as for adults.

An attorney and public speaker, who had been a catarrh sufferer for years says: "Every fall I would catch a cold which would settle in my head and throat and hang on all winter long, and every winter it seemed to get a little worse. I was continually clearing my throat and my voice became affected to such an extent as to interfere with my public speaking."

"I tried troches and cheap cough cures and sometimes got relief, but only for a short time, until this winter when I learned of the new catarrh cure, Stuart's Catarrh Tablets, through a newspaper advertisement. Two fifty cent boxes, which I bought at my druggist, cleared my head and throat in fine shape and to guard against a return of my old troubles I keep a box of the tablets on hand and whenever I catch a little cold I take a tablet or two and ward off any serious developments."

Stuart's Catarrh Tablets deserve to head the list as a household remedy, to check and break up coughs and colds, because unlike many other catarrh and cough cures these tablets contain no opiate, cocaine or any injurious drug.

### STATE CAPITAL.

TWO MEMBERS OF THE STATE BOARD OF EQUALIZATION APPOINTED.

Frankfort, Ky., Jan. 5.—State Auditor Coulter, chairman of the state board of valuation and assessment, has sent out notices to the railroad corporations of the state that the board will sit on January 11, and continue to January 19, for the purpose of fixing the value of franchises. The values will be fixed on the assessment of September 15 last.

Incorporation articles were filed in the office of the secretary of state by the Cadiz bank, of Trigg county. It has \$20,000 capital stock, and D. P. Smith, E. E. Wash and J. W. McKinney are at the head of it.

Attorney General Breckinridge, Auditor Coulter and Secretary of State Hill warmed themselves before a fire lighted in the office of the auditor this morning, in which \$30,000 worth of coupons were consumed. The coupons were clipped from the 4 per cent state bonds.

Only two of the seven members of the new state board of equalization to be named by Governor Beckham have been finally selected. These are Mr. M. J. Meagher, of this city, and Mr. George L. Willis, of Shelbyville.

The state board of valuation and assessment met this morning and extended the time allowed by law for the filing of withdrawal reports by distillers from January 5 to January 10. The extension was granted to relieve the distillers of any penalty for failure to report. The valuation was only finally agreed upon Tuesday last and the printer did not supply the blanks for reports to the auditor until today.

To Cure a Cold in One Day Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

### DEEDS.

E. B. Wren transferred his interest in the Mrs. A. T. Wren homestead, in the county, to Joseph Wren, for \$375.

Twenty acres of ground in the county, was bought of C. House by J. B. Sellers, for \$400.

### THE GREER APPEAL CASE.

The James Greer appeal case, from Marshall county, will come up in the court of appeals at Frankfort Monday. Greer was given a life sentence for brutally killing John Thomas, colored.

Couldn't Make It Out. Billy—You say I was born in London, papa, but where was mother born? Father—In Liverpool. Billy—And where were you born, papa? Father—In Glasgow. Billy—It's very strange, papa, that we three should have met.—Pick-Me-Up.

## 100 YEARS AGO.

The richest man in the United States at the latter end of the Eighteenth century was George Washington, who was worth pretty nearly a million dollars. Probably the richest man today is John D. Rockefeller, whose wealth is reckoned at \$30,000,000. Mr. Carnegie is supposed to be worth \$200,000,000, while W. K. Vanderbilt and William Waldorf Astor probably come next, with over \$100,000,000 apiece. These great millionaires cannot estimate their own riches within a margin of millions.

The poor man today is far better off than he was in 1800. He is a freer man. Then he was simply a laborer, without social or political influence; now he has both, and his voice commands attention. In those days the wage of a carpenter was 63 cents a day, of a shoemaker 73 cents, of a blacksmith 70 cents, of a shipbuilder 90 cents. Toilers in the fields received from 25 cents to 40 cents.

In Columbus time the Indians of North America were mostly undelivered, or nearly so, and, as a rule, tattooed. By 1800 they had been much modified by white influence, and all of the aborigines east of the Mississippi were acquainted with the whites and with the white man's weapons. The Sioux, who prior to 1700, had been foot Indians, had acquired the horse, which was introduced by the whites, and had become horse Indians. But in 1800 the whites knew nothing of the Indians west of the Mississippi and very little about the tribes west of Pittsburgh.

There are good reasons for believing that there are as many Indians in the United States today as there ever were. They number 262,000, of whom 80,000 are in the Indian Territory. Civilized dress is worn wholly by 90,950 of them, and in part by 40,605. They occupy 6,758 houses, and 238,351 of them are church members. Nearly 50,000 speak English and 40,187 know how to read.

The United States government took formal possession of Washington as the capital of the nation December 12, 1800. The beautiful city by the Potomac, which today has a population of 236,000, was then a wilderness. There was good shooting for rabbits and quail within a few hundred yards of the unfinished capitol, and Pennsylvania avenue for nearly the whole distance from the capitol to the president's house, was a deep morass, covered with alder bushes. There were in the town eighty-four brick and 111 frame houses. Only the senate wing of the capitol had been erected, and at first the representatives were crowded into a room intended for senate officials. The treasury, a small structure on the corner of the lot occupied by the present imposing treasury building, was the only departmental edifice as yet erected.

Of the presidential mansion, which was of sandstone and not then painted white, a congressman wrote that it "was built to be looked at by visitors and strangers, and would render its occupants objects of ridicule with some and of pity with others." Mrs. Adams, its first mistress, said in a letter to her daughter: "Not a single apartment is finished, and the great unfinished audience room (the east room) I make a drying room of to hang up the clothes in."

The Sixth congress, which met in Washington in 1800, comprised thirty-two senators and 112 representatives. The Fifty-sixth congress has ninety senators and 357 representatives.

The Nineteenth has been the mechanical century. It has brought forth machines which have multiplied many fold the producing power of human labor. Arkwright's spinning jenny, invented in 1815, enabled one operator to turn out as much yarn as 200 could a few years earlier. A girl 12 years old can now make thirty-five yards of printed calico daily, and her work will clothe and keep clad 12,000 persons in the east. The Goodyear machine enables one man to sew 250 pairs of shoes a day, and 100 men can turn out as many boots and shoes as 500 could by the old hand processes.

In spinning carpet material one person does what 100 formerly did, and in weaving the carpet one accomplishes as much as ten in 1800. A fair loom weaver a century ago wove forty-five yards of shirting in a week; now one operator, tending six power looms, produces 3,000 yards.

The Best Prescription for Malaria Chills and fever is a bottle of GROVES' TASTELESS CHILL TONIC. It is simply iron and quinine in a tasteless form. No cure—no pay. Price 50c.

Impressionism. D'Auber—This is my portrait of Miss Nurox, just finished. What do you think of it? Friend—Ah! Regular summer girl pose. Rustic seat, white lace gown and even a caterpillar on her neck. Jove! That's a great touch of realism.

D'Auber—Caterpillar? Stupid! That's a diamond earring.—Philadelphia Press.

Unnecessary. Mrs. Climson—Here, Willie, while I am away I am going to give you the key to the pantry, just to show you that I can trust you.

Willie, proudly—I don't need it mamma. I can pick that lock any day.—Life.

### THE TRUNK LOST.

Officer Tom Orr was awakened this morning at an early hour by a dull thud in the street in front of his home near Eleventh and Caldwell. He went outside and found a big drummer's sample trunk in the middle of the street. It had evidently fallen out of some wagon and its loss was not discovered. He telephoned until he found some one to come after it, and the owner was finally found at one of the hotels.

### GONE LIKE THE DEW THE YEAR THAT'S PAST.

The years—how they have passed! They are gone as clouds go on a summer day; they came they grew, they rolled full-orbed; they waned, they dimmed and their story is told. Years that wrought upon us in thought and deed with the force and power of eternity—years, whose marks we shall carry forever—were dissolved like dew, and their work is finished.—Henry Ward Beecher.

"Ah, me! 'Yesterday my husband exclaimed 'Parbleu! at golf. 'This evening he has just exclaimed 'Hoot, mon!' at my fete champagne. 'How humiliating to be married to such a clod of a man, with no soul, none of the finer sensibilities!'—Detroit Journal.

joyous from out futurity to take its  
place among the things that be, and  
its infant days are crowned with fair  
promises of a happy and prosperous  
existence. Its birthday was not only  
the harbinger of a year of unparallel-  
led prosperity but an auspicious begin-  
ning of a new century. A universal  
feeling of awe and solemnity permeat-  
ed every heart and home when the  
time voices in the steeples tolled the  
knell of another hundred years gone  
into measureless eternity, and myriad  
were the watches that witnessed the  
mystic phenomenon when the silent  
hours of the old century passed into  
the silent hours of the new.

**REFLECTIONS OF A BACHELOR.**

If a thin woman is rich, she is only  
slight.  
There is very often a girl behind the  
man behind the gun.  
Women mistake passion for love;  
men, love for passion.  
Show me a girl's bureau and I'll tell  
you her favorite article.  
Probably the spider first tried to en-  
gage himself to the fly.

A man's ambition is to be noted; a  
woman's to be noticed.  
The closer you get to her the more  
far-away look a girl gets.  
Ananias probably made most of his  
reputation while he was courting.  
No man who has kept single has  
ever been really disappointed in love.  
If men were half as bad as women  
pretend to them they think they are  
the devil could take a life vacation.

**Sleeplessness**  
is a terrible affliction. The most common  
cause of it is some form of indigestion. Rip-  
ans Tablets positively cure indigestion. They  
do not irritate the bowels, producing an unnat-  
ural, immediate effect, but gradually exert an in-  
fluence over the nervous system, which results in  
ready sleep, sound and refreshing.  
"I am glad to give my testimonial in regard  
to the great worth of Ripans Tablets," writes  
a middle-aged lady, living in Philadelphia, Pa.  
"I slowly recovered from a severe illness and  
was getting along very well, only I could not  
sleep, which kept me from gaining strength.  
A friend advised me to take Ripans Tablets,  
which acted like a charm, giving me refreshing  
slumber and also renewing my strength. I  
was also troubled with dyspepsia, and found  
to my great surprise that as my strength re-  
turned I was cured of this disease also."

**HON. E. W. BAGBY.**

MENTIONED IN A FLATTERING WAY FOR A PROPOSED ATTORNEYSHIP.

The Louisville Post of yesterday prints the following article, which The Sun reprints with pleasure, and accompanies it with a good picture of the gentleman named:

"The Hon. Emmet W. Bagby, of Paducah, is an applicant for district attorney of the proposed new federal judicial district, and he has excellent chances to win the place."

It had been reported for some time that Mr. Bagby would become a candidate for the place, but until now he has not definitely announced his intentions. At present he is referee in bankruptcy for his congressional district.

"As a lawyer, orator and citizen no man in Western Kentucky stands higher. He led the Republican forces in the Purchase when there were very few Republican forces to lead, giving of his time and money to the building up of the party organization. He served three terms as city attorney of Paducah at a time when the town was overwhelmingly Democratic. Until recently he was the only Republican who had ever been elected to office in Paducah. His personal popularity is very great."

"He was the author and original promoter of the legislation which resulted in the providing of adequate educational advantages for the colored children of Kentucky. He was active and zealous in organizing the civil liberty advocates at the state elections of the last two years."

"As two of the four present judicial officers—Attorney Hill and Assistant Attorney Fitzpatrick—came from eastern districts, it is reasonable to suppose that Western Kentucky will not be altogether overlooked in the distribution of the expected patronage. Mr. Bagby has strong backing, is himself a strong man, and will make a strong fight for the place. He is admirably qualified to fill it."
